Office Action Summary

**Part III DETAILED ACTION**

1. This application is a 371 of PCT/NL95/00108.
2. Claims 3-6, 18, 22 and newly added claim 23 are pending.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 3-6, 18, 22 and newly added claim 23 are rejected under 35 U.S.C. § 102(b) as being anticipated by Canadian Patent 2,072,009 (AL), of record, for reasons supplied in Paper No.31 .

Applicant's arguments filed 11-5-99 have been fully considered but are not found persuasive.

Applicant argues that since the prior art peptide was never made it can not properly be used in a 35 USC 102(b) rejection. Furthermore, Applicant argues the prior peptide was not taught to be a T cell epitope nor was it taught to correspond to a conserved mammalian stress protein.

However, 1) the source of the peptide is immaterial to the patentability of the claims, 2) the functional limitations are an inherent property of the prior art disclosed peptide since the prior art peptide meets the structural limitations of the claim, unless Applicant is arguing they are not enabled for the full scope of the claimed invention, 3) the disclosure of the peptide on page 26, immediately envisages the structure of the peptide and therefore the reference teaches the structure of the peptide since making it from a disclosed amino acids sequence is well within the purview of one of skill in the art.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for response to this final action is set to expire THREE MONTHS from the date of this action. In the event a first response is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for response expire later than SIX MONTHS from the date of this final action.
